### **MICRODYN-NADIR announces new distributor in India**

*Goleta, California* – MICRODYN-NADIR, the Membrane Solutions segment of MANN+HUMMEL, announced a new distributor partnership in India for water and wastewater products. Chembond Clean Water Technologies Limited, based in Mumbai, is an authorized distribution partner for MICRODYN-NADIR products including BIO-CEL<sup>®</sup> MBR, AQUADYN<sup>®</sup> UF, PureULTRA UF, and MICRODYN RO & NF spirals.

“Having Chembond Clean Water Technologies Limited as an authorized distributor is an exciting step as part of our commitment to India and growth in the region. We are confident that our partnership will provide customers with excellent service and increased access to our high-quality membrane products,” said Marco Nava, Vice President Membrane Solutions with MANN+HUMMEL.

Chembond Clean Water Technologies Limited is a subsidiary of Chembond Chemicals Limited, an established specialty chemicals manufacturing company with a 45-year history in India. The company is a dominant water treatment market player offering a broad product range of solutions like cooling water treatment chemicals, boiler water treatment chemicals, membrane treatment chemicals, raw water and effluent treatment polymers, defoamers, and dosing and monitoring systems.

“We are proud to offer MICRODYN-NADIR products to our customers in India. The products are a natural extension of our current offering to the market. Innovation is a top priority for us, and we believe that our partnership with an industry leader such as MANN+HUMMEL will only enhance that experience for our customers,” said Vinod Deshpande, Director of Chembond Clean Water Technologies Limited.

###

### **About MICRODYN-NADIR**

MICRODYN-NADIR, part of the MANN+HUMMEL Group, is a global membrane manufacturer that delivers the membrane products to meet customers' water and process needs. They offer the widest range of membrane products, including microfiltration, ultrafiltration, nanofiltration, and reverse osmosis in flat sheet, spiral-wound, and hollow-fiber configurations, as well as MBR technology for treatment of water

and wastewater. The company is headquartered in Wiesbaden, Germany, with locations in the USA, Europe, and Asia.

#### **About MANN+HUMMEL**

MANN+HUMMEL is a leading global expert for filtration solutions. The company group with its headquarters in Ludwigsburg, Germany, develops solutions for motor cars, industrial applications, clean air in interior spaces and the sustainable use of water. In 2019, the group achieved sales of approx. 4.2 billion euros worldwide with more than 20,000 employees at more than 80 locations. The products manufactured by the group include air cleaner systems, intake manifold systems, liquid filter systems, plastic components, filter media, cabin filters, industrial filters, and membrane filters.

#### **About Chembond Chemicals Limited**

Chembond Chemicals Limited (BSE and NSE: CHEMBOND) is a diversified specialty chemicals manufacturing company with a 45-year history in India. It offers a basket of products and solutions like water treatment chemicals, metal pre-treatment chemicals, construction chemicals, high performance coatings, animal nutrition products, and engineering plastics, predominantly in India.
